Robert Vendetta is something for himself - that's exactly what makes him something for you as well.

We'll release his third solo album, "All By His Handsome Self", on September 30th. The tender single "If It's Over" shows Robert Vendetta's unique abilities as a musical storyteller! Robert Vendetta has a growing and dedicated audience around the world. Although the touring year 2020 was not as international as one had hoped, he provided concert streaming, radio and TV appearances on four continents. Now he'd like to play for you as well.

Robert Vendetta describes the song this way: "Sometimes less is more, especially when you make a song about a void in the heart, created by many unanswered questions."

Besides Anders Jansvik on drums and Alma Raude Bostad on oboe, everything you hear is played, made and produced by Robert Vendetta. The single is mastered by Morgan Nicolaysen at Propeller Mastering.

Robert Vendetta is inspired by many great acts, and on this song he gets his inspiration from the air, warmth, storytelling ability and closeness of the jazz legends Jimmy Scott and Radka Toneff.

The song is accompanied by a wonderful music video made by Marius Martinsen. It showcases Robert Vendetta's abilities as a visual storyteller.
